Page 2: Statement of Use Agreement

Q1 The responses provided through this questionnaire are intended as a Statement of Use (SOU) for XLIFF Version 2.1. Edited by David Filip, Tom Comerford, Soroush Saadtfar, Felix Sasaki and Yves Savourel. 23 August 2017. OASIS Committee Specification 01. <http://docs.oasis-open.org/xliff/xliff-core/v2.1/cs01/xliff-core-v2.1-cs01.html>. Latest version: <http://docs.oasis-open.org/xliff/xliff-core/v2.1/xliff-core-v2.1.html> I understand that the SOU MAY be used by the XLIFF TC to progress the Committee Specification to OASIS standard.

I agree

Q2 My organization has implemented or used the referenced XLIFF Version 2.1 Committee Specification as specified below

I agree

Q3 Are you an OASIS member or an employee of an OASIS member organization?

No

Page 3: Statement of Use Agreement

Q4 OASIS affiliation

Respondent skipped this question

Page 4: Statement of Use Agreement

Q5 Affiliation

I am neither an OASIS member, nor an employee making this statement on behalf of an OASIS member and I understand that I will need to endorse the data collected through this questionnaire by writing an e-mail to the XLIFF TC comments list and that this SOU MUST NOT be used in the OASIS TC process without me endorsing the statement through the said comments mailing list.

XLIFF 2.1 SOU

Q6 I want to endorse this SOU through the XLIFF TC comments list

I agree Note: Please note that the survey organizers will send to the e-mail address you provide a pdf containing your responses, so that you can attach them to the e-mail you will be sending through the comments list. In case you for whatever reason fail to follow up through the comments list, your SOU cannot be used for the specification's progression, your responses will however be included in a public TC report on XLIFF 2.1 implementations.

Page 5: General information about the tool and its main developers

Q7 Insert your tool name and its current version

Umbraco NuTranslation

Q8 Your name (and position)

Simone Chiaretta (head developer)

Q9 Company

Council of European Union

Q10 Please describe your implementation in a few lines.

It is a plugin that allows exporting and merging content from the Umbraco CMS in Xliff v2.1 format.

Q11 Is your tool publicly available?

No

Q12 Could you provide more information about your tool? Links to possible downloadable implementations, demos, documentation, etc.

The final product is still not available but the underlying library that does the actual Xliff processing is publicly available (still in pre-release version) on Github:

<https://github.com/simonech/XliffLib>

Q13 Contact Email (to be used only to obtain clarification about your answers IF NECESSARY, and to send you the summary of your answers in a PDF document, your email address will not be published)

Q14 Is your company involved in the XLIFF Technical Committee?

No

Q15 If not, do you have any contact with the XLIFF TC? (E.g. mailing lists participation). Please specify:

mailing lists participation

Page 6: Type of tool and extensions information

Q16 Following the tool definition's provided by the XLIFF TC, which type of "agent" would your tool be? An AGENT is any application or tool that generates (creates), reads, edits, writes, processes, stores, renders or otherwise handles XLIFF Documents. You can select more than one answer

EXTRACTOR (an Agent that performs the Extraction process: the process of encoding localizable content from a native content or User Interface format as XLIFF payload, so that localizable parts of the content in the source language are available for Translation into the target language along with the necessary context information)

MERGER (an Agent that performs the Merge process: the process of importing XLIFF payload back to the originating native format, based on the full knowledge of the Extraction mechanism, so that the localized content or User Interface strings replace the source language in the native format)

WRITER (an Agent that creates, generates, or otherwise writes an XLIFF Document for whatever purpose, including but not limited to Extractor, Modifier, and Enricher Agents).

Q17 Does your tool produce its own custom XLIFF extensions? (e.g. "xmarker:" or "okp:")

No

Q18 If yes, please specify or describe them and if they are publicly available, please specify where they can be obtained:

Respondent skipped this question

Q19 Can your tool create XLIFF files from other formats? (E.g. html)[If yes, your tool can be classified as "extractor" following the XLIFF Technical Committee terminology]

Yes

Q20 If yes, please specify which file formats are supported:

Respondent skipped this question

Q21 Can your tool change XLIFF files that it has produced?[If yes, your tool can be classified as "enricher", "modifier" and/or "writer" following the XLIFF Technical Committee terminology]

No

Q22 Can your tool change valid XLIFF files produced by other tools?[If yes, your tool can be classified as "enricher" and/or "modifier" following the XLIFF Technical Committee terminology] **No**

Page 7: Type of tool and extensions information

Q23 Apart from general support for third-party valid XLIFFs stated above, have you successfully tested roundtrips with other XLIFF capable tools?Note: By "roundtrip" we mean "read, understand, modify if needed, and return to the originating environment without breaking the cycle". **Respondent skipped this question**

Q24 If yes:A) Which tools? **Respondent skipped this question**

Q25 B) Which tools including their specific proprietary XLIFF extensions? **Respondent skipped this question**

Q26 If your tool processes XLIFF documents, does it preserve any XLIFF elements or attributes of XLIFF extensions that it does not support/understand? **Respondent skipped this question**

Q27 XLIFF 2.1 core and modules support **XLIFF 2.1** ,
Core
Format Style Module,
Metadata Module,
Resource Data Module

Page 8: XLIFF 2.1 CORE support

Q28 Please select from the following required XLIFF elements the ones that your tool can process: **xliff,**
file,
unit,
segment,
source

Q29 Can your tool handle more than one file element in an XLIFF file? **Yes**

Q30 Does your tool prevent the creation of duplicated unit IDs?

Yes

Q31 Please select from the following required XLIFF attributes the ones that your tool can process:

version,
srcLang,
id

Page 9: XLIFF 2.1 CORE support

Q32 Structural core elements. Please select from the following XLIFF elements the ones that your tool can process:

xliff,
file,
group,
unit,
segment,
notes,
note,
originalData,
source,
target

Q33 Inline elements Please select from the following XLIFF inline elements the ones that your tool can process:

pc,
sc,
ec

XLIFF 2.1 SOU

Q34 XLIFF 2.1 Attributes Please select from the following XLIFF attributes the ones that your tool can process:

canCopy,
canDelete,
canResegment,
dataRefEnd,
dataRefStart,
href,
id,
name,
original,
srcLang,
state,
subType,
trgLang,
translate,
type,
version

Page 10: (XLIFF 2.1) Translation Candidates Module

Q35 Does your tool support the Translation Candidates Module?

No

Respondent skipped this question

Page 14: (XLIFF 2.1) Format Style Module

Q41 Does your tool support the Format Style Module? **Yes**

Page 15: (XLIFF 2.1) Format Style Module

Q42 Attributes **fs,**
subFs

Page 16: (XLIFF 2.1) Metadata Module

Q43 Does your tool support the Metadata Module? **Yes**

Page 17: (XLIFF 2.1) Metadata Module

Q44 Elements **metadata,**
metaGroup,
meta

Q45 Attributes **appliesTo,**
category,
id,
type

Page 18: (XLIFF 2.1) Resource Data Module

Q46 Does your tool support the Resource Data Module? **Yes**

Page 19: (XLIFF 2.1) Resource Data Module

Q47 Elements **resourceData,**
resourceItemRef,
resourceItem,
source,
target,
reference

Q48 Attributes

id,
xml:lang,
mimeType,
href

Page 20: (XLIFF 2.1) Size and Length Restriction Module

Q49 Does your tool support the Size and Length Restriction Module?

No

Q58 Does your tool support the Allowed Characters data category? **Respondent skipped this question**

Q59 Please select from the following attributes the ones that your tool can process: **Respondent skipped this question**

Page 27: (XLIFF 2.1) ITS Module. Domain

Q60 Does your tool support the Domain data category? **Respondent skipped this question**

Q61 Please select from the following attributes the ones that your tool can process: **Respondent skipped this question**

Page 28: (XLIFF 2.1) ITS Module. Locale Filter

Q62 Does your tool support the Locale Filter data category? **Respondent skipped this question**

Q63 Please select from the following attributes the ones that your tool can process: **Respondent skipped this question**

Page 29: (XLIFF 2.1) ITS Module. Localization Quality Issue

Q64 Does your tool support the Localization Quality Issue data category? **Respondent skipped this question**

Q65 Please select from the following attributes the ones that your tool can process: **Respondent skipped this question**

Page 30: (XLIFF 2.1) ITS Module. Localization Quality Rating

Q66 Does your tool support the Localization Quality Rating data category? **Respondent skipped this question**

Q67 Please select from the following attributes the ones that your tool can process: **Respondent skipped this question**

Page 31: (XLIFF 2.1) ITS Module. Text Analysis

Q68 Does your tool support the Text Analysis data category?

Respondent skipped this question

Q69 Please select from the following attributes the ones that your tool can process:

Respondent skipped this question

Page 32: (XLIFF 2.1) ITS Module. Localization Note

Q70 Can your tool roundrip ITS Localization Note data using XLIFF Core Note and XLIFF Core Comment Annotation?

Respondent skipped this question

Page 33: (XLIFF 2.1) ITS Module. Terminology

Q71 Does your tool FULLY support the Terminology data category? Note: The XLIFF Core Term Annotation supports partially the [ITS] Terminology [<http://www.w3.org/TR/its20/#terminology>] data category. Therefore, this question aims to obtain information on the support as specified by the ITS module [http://docs.oasis-open.org/xliff/xliff-core/v2.1/csprd03/xliff-core-v2.1-csprd03.html#Terminology_datacat].

Respondent skipped this question
